- Problem Solving & Adaptability – proactive approach in fast-changing environments

[DOWNLOAD RESUME](#)

Anna Topalidi

Ruby on Rails Developer

Experienced Ruby on Rails developer with a focus on open-source projects for civic engagement. Currently contributing to Decidim, developing solutions for the Barcelona City Council and other international clients. Passionate about building scalable web applications and collaborating with a professional team.

Projects

1. [Vocdoni Module for Decidim](#) – Worked on the development and integration of decentralized voting features using blockchain technology, enabling secure and scalable participatory voting within the Decidim platform.
2. [Decidim Kids Module](#) – Developed features to enable child-friendly participatory activities, adapting Decidim for broader citizen engagement by the Barcelona City Council.
3. [Reporting Proposals Module](#) – Implemented tools for improved proposal reporting and transparency in civic processes.
4. [Participatory Documents Module](#) – Developed mechanisms for co-editing and sharing key documents within participatory projects to enhance collaboration.
5. [Decidim Awesome Module](#) – Enhanced user interface and experience for better accessibility and engagement within Decidim.

Employment History

Ruby on Rails Developer at [PokeCode](#)

August 2022 – Present

- Developed custom modules for Decidim, focusing on civic engagement and digital democracy.
- Contributed significantly to the [Vocdoni Module](#), integrating decentralized blockchain-based voting for enhanced security and transparency.
- Collaborated with the Barcelona City Council to adapt Decidim to local needs, delivering scalable web solutions.
