- Getting Things Done

DOWNLOAD RESUME

Anna Topalidi

Ruby on Rails developer

After 30 I changed my profession. From Top Retail Manager to IT. It was a fascinating way. Challenging and interesting. And I believe I have done everything right.
I have a little experience in frontend development. At the moment I'm learning Ruby and Ruby on Rails because I like it. And I want to become a Ruby developer.
In my free time I am fond of trading.

Projects

1. Project 1 (Description)
2. Project 2 (Description)
3. Project 3 (Description)
4. Project 4 (Description)
